Mercedes-Benz Financial Services

Who better to Finance and Insure your vehicle than the people who built it

Mercedes-Benz Finance

Agility

Have you guaranteed the future value of your vehicle?

With Agility, Mercedes-Benz South Africa guarantees you the future value (GFV) of your vehicle. Drive the latest Mercedes-Benz every 36 months with no trade-in risks.

What makes Guaranteed Future Value (GFV) exclusive?

A traditional Residual Value (RV) lends the possibility to reduce and revisit the value of the vehicle; therefore the shortfall risk remains with you. The brand certified inflated GFV* guarantees you the future value of the vehicle with 0% risk**, which in return also offers a lower monthly repayment.

End-of-Term period on GFV*

On the 36 month contract you get to drive the latest Mercedes-Benz sooner and more frequently than before. When you reach the end-of-term period Agility offers:

Option 1 – Re-order:

By trading your vehicle in for a new model, you will be protected from negative equity, and any positive equity can be used towards your new vehicle purchase.

*Option 2 – Refinancing *GFV/Ownership by settling *GFV:*

Simply pay or refinance the guaranteed future value amount and keep/own the vehicle.

Option 3 – Return:

Hand back the keys with no further obligations – other than any Excess Kilometre charges and Unfair Wear and Tear

Agility Benefits

- ▶ Innovative ownership
- ▶ Individualised finance solutions
- ▶ The choice of a new car every 3 years
- ▶ Highest guaranteed future value available, as Mercedes-Benz passenger cars has taken on this responsibility for you
- ▶ Who better to Finance and Insure your vehicle than the people who built it
- ▶ Flexible end of term options

* Guaranteed Future Value

** Terms and conditions apply

Contract Purchase (Choices)

Choices is an innovative finance plan that puts you in the driver's seat by giving you the luxury of choice. With this unique finance plan, you get to choose an option that suits you best at the end of the agreement period.

You can:

- ▶ Make the final payment and take ownership of the vehicle;
- ▶ Trade the vehicle in for a new model;
- ▶ Extend the agreement period by spreading the cost of the final payment; or
- ▶ Simply return the vehicle with no further obligation.

Instalment Agreement

The Instalment Agreement is the traditional way of financing your vehicle of choice. There are no surprises, only predictable and regular monthly instalments. What you get out of the deal is a finance package where repayments are payable in regular monthly instalments over an agreed period.

Instalment Agreement with Balloon

Instalment Agreement with Balloon is a simple and effective way for acquiring a vehicle with lower monthly instalments, and a final payment that transfers ownership to you. A final payment is negotiated at the outset of the agreement, and the remaining cost, plus interest charges, is then repayable in regular or monthly repayments over an agreed period. When the final payment is made, ownership is transferred to the customer.

FlexiFix: Attaining Flexibility with Risk-Free Mobility

In the move to manage rising expenses and stretch budgets, customers often choose to use fixed rate financing as a means to curb against anticipated interest rate hikes. This finance product allows you to have control over your monthly vehicle repayments by minimising the immediate impact of interest rate increases, whilst the benefit of rate decreases will still be enjoyed when they occur. FlexiFix enables you to budget better by allowing you to have fixed payments until the penultimate payment. The last payment absorbs all increases, or decreases that may occur with interest rates.

Benefits of FlexiFix

- ▶ Fixed capped monthly repayments (until the penultimate instalment).
- ▶ Better budgeting.
- ▶ Less concern about the immediate impact of interest rate increases.
- ▶ Provides certainty and payment guarantee to customers.
- ▶ Should the customer wish to re-finance the last payment, Mercedes-Benz Financial Services can assist by refinancing this amount on a new agreement for an agreed term.
- ▶ Unlike fixed rate contracts, FlexiFix enables the customer to benefit from interest rate decreases. Here, an automatic decrease in the last payment would take place. Once again, the fixed monthly payments would be unaffected.
